Wash up!

Germs are yucky! They make you feel icky and sick.

Germs live on your hands. You can get germs from other people.

aphagetready.org
But you can wash germs away!

1. Wash your hands with warm water.
2. Use soap.
3. When you wash your hands, sing the “Happy Birthday” song two times.

Goodbye germs!

The Get Ready hand-washing campaign is supported by a grant from the Colgate-Palmolive Company.
